Social media impact on our lives

Social media

- A social media page such as facebook, Instagram, twitter, etc
- Post status, picture/selfies, comments and shares
- Every posts saves itself and it becomes a memory that would not delete unless you do so yours

Personal impact

Social media has impacted our lives in many ways such as

- Creating a page where you feel free to share or post anything you want
- Holding & creating memories
- Going back and seeing how grown or different you from the person before

Importance of creativity

- Showing your talent or gift
- Personality of the person creating the piece of art or image or code
- A story behind the creation
- It also will show the potential of a person

```python
#            python code
#            script_name:
#
#            author:
#            description:
#

from earsketch import *

init()
